AFTER FIRE OPERATIONS REPORT

Please fill out all required fields carefully and double-check your answers before submitting. If a question doesn't apply, type "N/A."

A. RESPONSE DETAILS

1	Type of Responder *(select only one)*		
		First Responder	*(Name of Fire Station)*
		Augmenting Team	*(Name of Fire Station)*
2	Date Fire Notification Received *(mm-dd-yyyy)*		
3	Time Fire Notification Received *(24 hour format)*		
4	Region		
	Province/District		
	City/Municipality		
	Complete Address of Fire Incident		*(House/Building No., Street Name, Barangay, City/Municipality, Province*
5	Nearest Landmark (if applicable)		
6	Name and Contact Number of Caller/Reporter		
7	Name of Personnel Who Received the Call/Report		
8	Name of Engine Dispatched		

9	Time Engine Dispatched *(24 hour format)*	
10	Time Arrived at Fire Scene *(24 hour format)*	
11	Total Response Time in Minutes (=10-3)	
12	Approximate Distance of Responding Unit to Fire Scene *(in kilometer)*	
13	Highest Alarm Level Tapped	
14	Time Returned to Base *(24 hour format)*	
15	Total Gas Consumed *(in Liter)*	

B. NATURE AND CLASSIFICATION OF INVOLVED

16	Classification of Involved		
		Structural (pick from dropdown list)	
		Non-Structural (pick from dropdown list)	
		Transportation (pick from dropdown list)	
17	Name of Owner / Name of Establishment		
18	General Description of Involved *(basic construction type, make, built, brand, model of the involved)*		
19	Area of Origin *(example: living room, dinning room, kitchen, basement, garage, bedroom and/or vehicle)*		
20	Stage of Fire Upon Arrival *(pick from dropdown list)*		
21	Extent of Damage *(select only one)*		
		None/Minor Damage	*(describe object or damage)*
		Confined to Object/Vehicle	*(describe object or damage)*
		Confined to Room	*(total floor area in sqmts)*
		Confined to Structure or Property	*(total floor area in sqmts / total land area in hectares)*

		Total Loss	*(total floor area in sqmts / total land area in hectares)*
		Extended Beyond Structure or Property	*(how many structures affected / objects / vehicles or properties are involved)*
22	Number of Structures Affected		*(specify the number of residential structures affected only)*
23	Number of Household Affected		*(specify the number of residential structures affected only)*
24	Number of Families Affected		*(specify number)*
25	Number of Individuals Affected		*(specify number)*
26	Number of Vehicles Affected		*(specify number)*

C. ASSETS AND RESOURCES

27	Response Vehicles *(Check all applicable)*		
		BFP Fire Trucks	*(specify number)*
		BFP Manned Fire Trucks (LGU Owned)	*(specify number)*
		Non-BFP Fire Trucks	*(specify number)*
		BFP Ambulance	*(specify number)*
		Non-BFP Ambulance	*(specify number)*
		BFP Rescue Trucks	*(specify number)*
		Non-BFP Rescue Trucks	*(specify number)*
		Others, specify	*(ex.helibucket, fire&rescue boat, mobile kitchen and the like)*
28	Tools and Equipment *(Check all applicable)*		
		Self-Contained Breathing Apparatus (SCBA)	*(specify number)*
		Rope	*(specify length)*
		Ladder	*(specify number)*
		Hoseline	*(specify size & number)*
		Hydrolic Tools & Equipment	*(specify number)*
		Others, specify	
29	Location and Distance of Nearest serviceable Fire Hydrant		

D. FIRE ALARM LEVEL	*(24 hour format)*	*(mm-dd-yyyy)*	*(Incident Commander/Ground Commander)*
1ST ALARM-FOUA			
1ST ALARM			
2ND ALARM			
3RD ALARM			
4TH ALARM			
5TH ALARM			

30	TASK FORCE ALPHA			
	TASK FORCE BRAVO			
	TASK FORCE CHARLIE			
	TASK FORCE DELTA			
	GENERAL ALARM			
	FIRE UNDER CONTROL (FUC)			
	FIRE OUT (FO)			
31	Incident Command Post (ICP) *(select only one)*			
		With	*(specify location of ICP)*	
		Without		

E. PROFILE OF CASUALTIES			**Male**	**Female**
32		Injured Civilian		
		Injured BFP Firefighter		
		Injured Fire Auxiliary		
		Civilian Fatality/ies		
		BFP Firefighter Fatality/ies		
		Fire Auxiliary Fatality/ies		

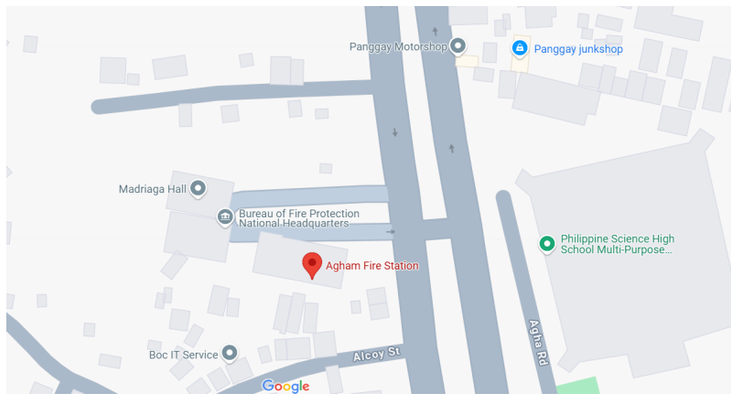
F. PERSONNEL-ON-DUTY		*Rank / Name of personnel*
33	Engine Commander	
	Shift-in-Charge	
	Nozzleman	
	Lineman	
	Engine Crew	
	Driver / Pump Operator (DPO)	
	Safety Officer in charge / contact number	
	Fire and Arson Investigator/s in charge / contact number	

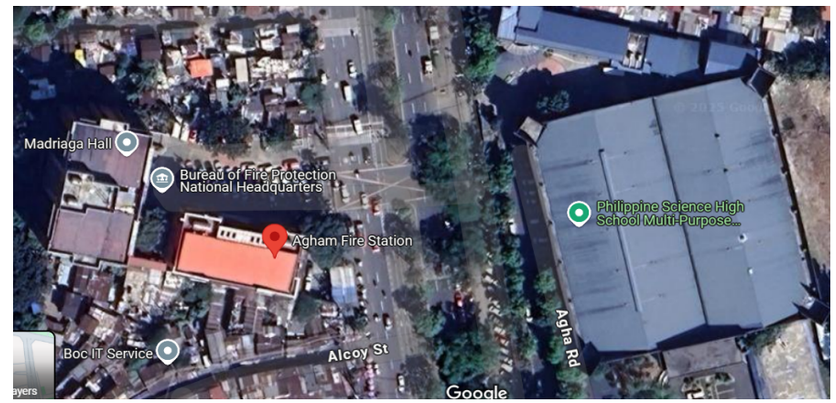
G. OTHER BFP PERSONNEL AND SIGNIFICANT PERSONALITIES PRESENT AT THE FIRE SCENE		*Remarks (Designation, Agency affiliated)*
	Name of the person	
	Name of the person	
	Name of the person	

34		

H. SKETCH OF THE FIRE SCENE *(use sketch type and satellite view image)*

35





Legend:

- BFP
- BFP Ambulance
- Fire
- Incident Command Post
- Fire Auxiliary
- Other Agency Ambulance
- Fire Hydrant

I. NARRATIVE CONTENT (Write in chronological order)

	On or about (time & date call/report received), (Name of duty Floor watch/ FCOS) received a call/ report from (name of caller/ reporter) with

	telephone/ CP number _____ regarding a (description of type of involved e.g. Residentia)l fire at (address) near (landmark)
	Dispatch of Engine Crew and Augmentation upto arrival at the scene: indicate where the fire truck is located when it was dispatched to fire scene, whether it is conducting OLP, fire drill, stand-by, etc.. Enumerate other fire trucks, assests and resources dispatched. Describe the traffic, road and community condition on route to location, is it rush hour, are there double parking cars, stampede, etc. that caused delay in the response time.
	The (name fire engine or other resources) was immediately dispatched on or about (time) while the crew is conducting OLP at (address).
	On route to (place of occurrence of fire), the crew was hampered by several road humps, Santacruzan, church activities and car being towed.
	Emphasize CONDUCT OF PHASES OF FIRE SUPPRESSION OPERATION RESPONSE
	Arrival at the scene: impression of the incident, classification of involved, stage of fire, extent of damage, scene size-up, safety and security concerns, possibility of raising alarm status due to population number, presence of hazmat, insufficiency of manpower, fire engine, tools, equipment and other resources.
	The (name of fire engine or other resources) arrived at the scene on or about (time). Total response time is (time in minutes).
36	Upon arrival at the scene, the fire is already in fully developed stage, it already engulped the whole structure and neigbors are already exposed to smoke.
	Upon scene size-up, (Name of SO), Safety Officer, declared that entering the building is no longer safe and sound.
	The team was informed that there are no trapped individual/ pet inside.
	Operational Details: enumerate alarm status raised and the Ground Commander in-charge until fire out. Include the time of overhauling stage until engines left the scene.
	On or about (time), (Name) Shift-in-Charge, declared 1st Alarm. On or about (time), (Name) Chief, Operations, declared 2nd Alarm.
	On or about (time), (Name) City Fire Marshal, declared 3rd Alarm. On or about (time), (Name) City Fire Marshal, declared under control.
	Finally, on or about (time), (Name) City Fire Marshal, declared fire out. The crew finished overhauling on or about (time).
	The (name fire engine or other resources) is in quarter on or about (time).
	Casualty: If there are injured victims indicate the total number and identify whether civilian, BFP or Fire Auxiliary. State the name, gender, age, condition if there are, the nature of their injuries, or the cause of death if available. If there are fatalities, indicate whether they are trapped and why they are trapped inside if information is available.
	There were no reported casualty during the operation.
	Other significant facts/events:

J. PROBLEMS ENCOUNTERED *(before, during and after fire operations) / (chek all applicable)*

		Inaccurate address / no landmarks especially in provinces resulting to difficulty in finding the involved
		Geographically challenged (distance of fire station to community: mountainous, inter-island and the like)
		Road conditions (double parking, narrow obstructed streets, rough roads, traffic lights malfunction, congested U-turn slots, merging roads, influx of pedestrians from places of assembly especially during rush hours , multiple humps, steep roads, open man holes/sewer, ambulant vendors obstruction, overhanging trees/branches, overhanging canopy of houses, dangling wires and the like)
		Road under construction / under repair
		Traffic congestion
		Road accidents
		Vehicles failure to yield
		Natural Disasters / Natural Phenomenon (Floodings / landslides, earthquakes others)
		Civil Disturbance (Riots/Rallies)
		Uncooperative / panicked residents
37		Safety and security threats (insurgents/terrorist/violent residents)
		Response delays due to lack of cooperation from property security and/or owner (ex. PEZA)
		Engine failure / mechanical problems while enroute
		Uncooperative Fire Auxiliary
		Poor water supply access
		Intense heat and smoke during firefighting operation
		Structural hazards (building collapse, electrical hazard, falling debris)
		Equipment mulfunction (faulty hoses, overheating or any mechanical issues of fire trucks or pumps)
		Lack of coordination with other emergency response teams (police, medics etc)
		Breakdown in radio communication due to distance, building structures, or system failure
		HazMat (contamination, chemical leaks etc)
		Physical exhaustion and injuries
		Emotional and psychological effects
		Community complaints against responders
		Others, specify

K. RECOMMENDATION/S

38	*Recommendation should solve the above stated problems encoutered.*

L. DISPOSITION

39	As of this date, no complaint has been filed against this Fire Station in relation to the fire suppression operation conducted. Accordingly, this report is hereby referred to the Intelligence and Investigation Unit/Section for further verification and fire cause determination. The said unit shall update and notify the Operations Unit/Section, through an official certification, should there be any developments or findings arising from the investigation that may affect the existing data and statistics.
